MADE IN AUSTRIA

JETfloat
INTERNATIONAL

JETFLOAT® DOUBLE ELEMENT

L x W x H = 100 x 50 x 40 cm, WEIGHT 11 kg
COLOURS: black / light blue / light grey / sand

JETFLOAT® SINGLE ELEMENT

L x W x H = 50 x 50 x 40 cm, WEIGHT 6 kg
COLOURS: black / light blue / light grey / sand

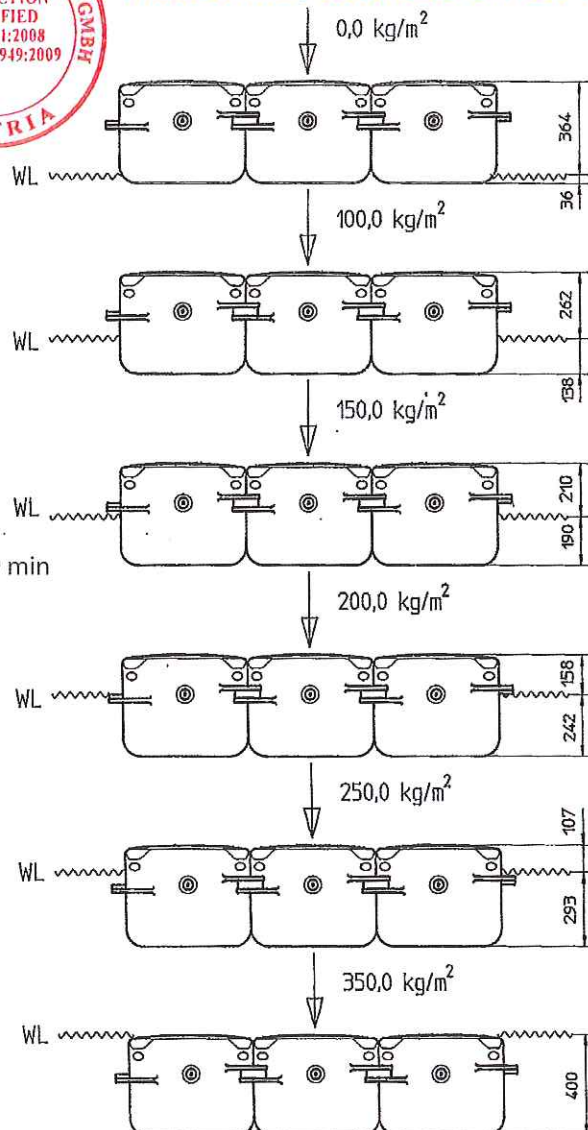

JETFLOAT® SINGLE ELEMENT LOW PROFILE

L x W x H = 50 x 50 x 25 cm, WEIGHT 5 kg
Black, Buoyancy: 220 kg/m² single layered

FREEBOARD / SUBMERSION DEPTH

MATERIAL

Genuine LUPOLEN 5261 Z (BASF/Lyondell/Basell)
Endorsed by up-to-date purchasing certificate
MFI 2g/10 min (190°C/21.6 kg) ISO1133
Density 0,954 g/cm³ (high molecular HD-PE)
Onset-Figure (energy value of the raw material) 80,69 min
UV resistant over decades
Salt water proofed, resistant to chemicals
Temperature range from - 60° to + 80° C

FREEBOARD

Flooding by 1" hose through flood covers (with O-ring seal) possible

BUOYANCY

350	kg/m ²	single	layered
700	kg/m ²	double	layered
1050	kg/m ²	triple	layered
