The idea ...
and the results ...

1971: applied for a patent; 1973: patent granted.

JETFLOAT INTERNATIONAL Gesellschaft m.b.H. is Austria's as well as the world's leading producer of "modular floating elements", made of a high-quality plastic raw material (BASF LUPOLEN 5261 Z).

- ⇒ **JETfloat** modular floating elements and systems have for decades found numerous applications on rivers and lakes, on beaches and on the open sea.
- ⇒ **JETfloat** not only offers the floating elements and the accessories, but also professional advice for the construction of complete installations.
- ⇒ **JETfloat** is therefore the right partner for INNOVATIVE PROBLEM-SOLVING in all sectors of application, right up to TURNKEY-installations.
- ⇒ **JETfloat** is represented by over 40 specialised distributor partners on all the important world markets. The global exchange of experience gained in this manner makes us a particularly reliable business partner with well-founded knowledge.

WHAT ALL JETFLOAT PRODUCTS HAVE IN COMMON

TARGET GROUPS:

- jetties, marinas, yacht harbours, jetboat "drive-on system"
- recreational platforms with swimming pools, diving platforms
- navy, coast guard, river/harbour police, mobile jetties
- working platforms, aquaparks, event stages, aquaculture

YOUR SOLUTIONS

LOW COSTS:

- no repair and maintenance costs
- simple assembly, no cranes needed for assembly
- partial assembly on land and on water
- extension / alteration in steps of 50cm
- capable of being dismantled, stackable, high resale value
- no sharp edges, corners or connecting parts
- innovative and strong accessories

YOUR ADVANTAGES

RELIABILITY:

- employable offshore (wave and storm proof)
- no material fatigue or weathering
- long life - in use for decades
- resistant to saltwater and acids
- plastic that is extraordinarily resistant to UV-rays and can be recycled

PRODUCT RANGE

Artikel No. 1000/1001/1002/1004
JETFLOAT SINGLE ELEMENT
black / light blue / light grey / sand

Artikel No. 1100/1101/1102/1104
JETFLOAT DOUBLE ELEMENT
black / light blue / light grey / sand

Artikel No. 1200
JETFLOAT SINGLE ELEMENT
low version, black

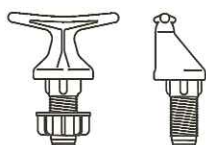

Artikel No. 1310/1311/1312/1314
CONNECTING PIN short
black / light blue / light grey / sand

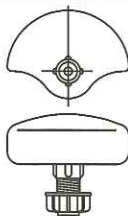

Artikel No. 1320/1321/1322/1324
CONNECTING PIN long
black / light blue / light grey / sand

Artikel No. 1340/1341/1342/1344
CONNECTING PIN long
with thread and nuts
black / light blue / light grey / sand

Artikel No. 2010
BOAT CLEAT
white

Artikel No. 2020
BOAT FENDER
white

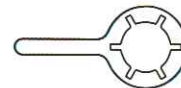

Artikel No. 2030/2031
SIDE SCREW CONNECTOR
white / black

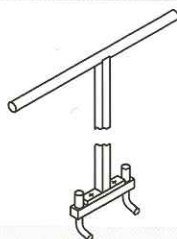

Artikel No. 2050
SINGLE DISTANCE DISC
black

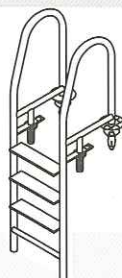

Artikel No. 2051
DOUBLE DISTANCE DISC
black

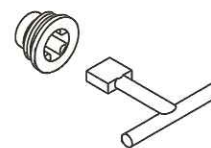

Artikel No. 4007
NUT KEY
galvanised

Artikel No. 4001
TORQUE WRENCH
galvanised

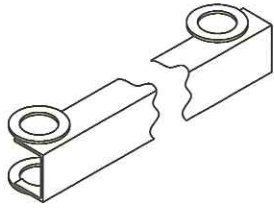

Artikel No. 4010
BATHING LADDER
stainless steel including 2 connecting
pins and 2 side screw connectors

Artikel No. 4020
FLOODING KEY
galvanised

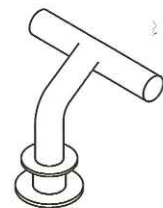

PRODUCT RANGE

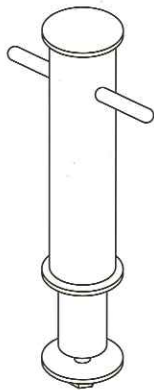

Artikel No. 4040/41 ... 4080/81
SIDE BAR
galvanised/stainless steel

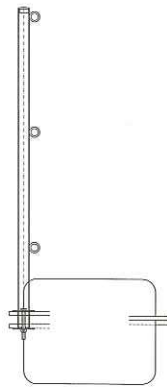

Artikel No. 4200/4201
SCREW JOINT UNIT
complete, galvanised/stainless steel

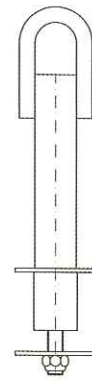

Artikel No. 4232/4233
BOAT CLEAT
galvanised/stainless steel

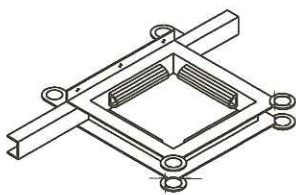

Artikel No. 4238/4239
CROSS-BOLLARD
galvanised/stainless steel

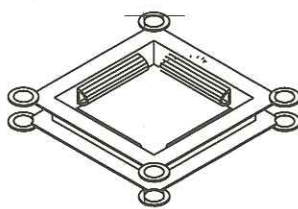

Artikel No. 4300/4301
STANCHION
galvanised/stainless steel

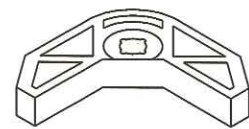

Artikel No. 4400/4401
MOORING DEVICE
standard, galvanised/stainless steel

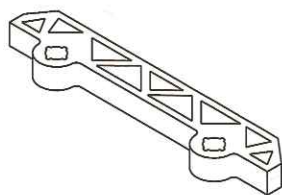

Artikel No. 4512
PILE CAGE 2L
4 plastic fenders including screw joint units, galvanised

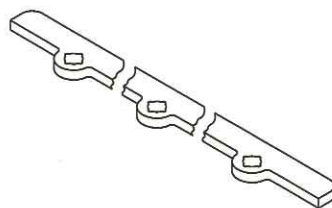

Artikel No. 4518
INNER PILE CAGE
4 plastic fenders including screw joint units, galvanised

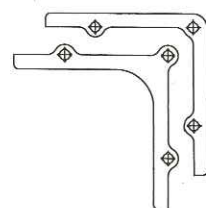

Artikel No. 5102
PU CORNER FENDER
Polyurethane / soft red

Artikel No. 5122
PU FENDER 2 L
Polyurethane / soft red

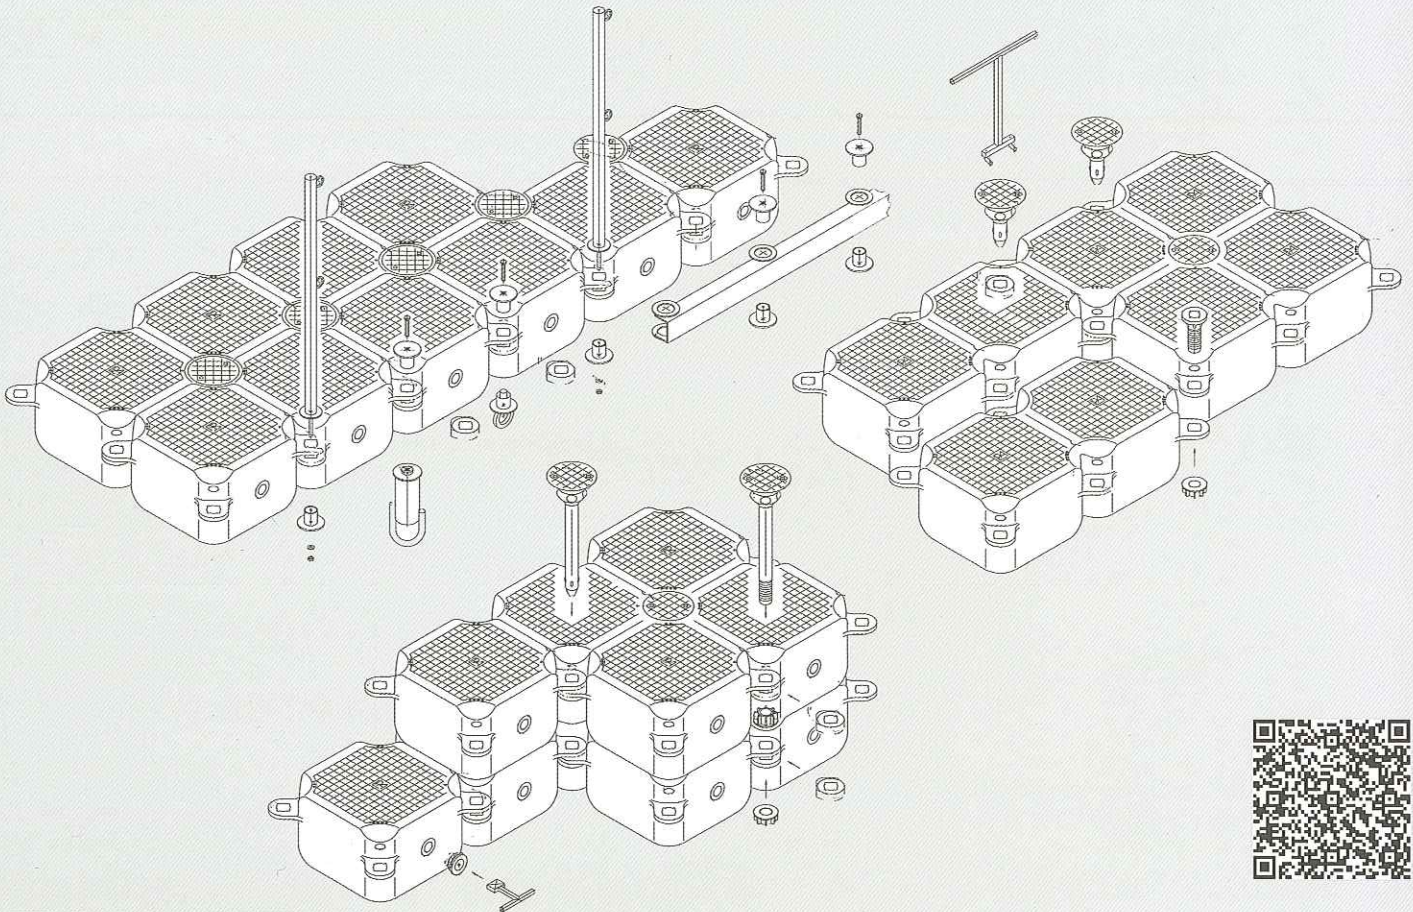

Artikel No. 5220 ... 5270
PE SIDE BAR
Polyethylene / hard black

Artikel No. 5201/5202
PE CORNER BAR
Polyethylene / hard black

TECHNICAL DATA

JETFLOAT® MODULAR FLOATING ELEMENTS & SYSTEMS MADE IN AUSTRIA ISO 9001:2008 & ISO TS 16949:2009

JETFLOAT SINGLE ELEMENT:
L x W x H = 50 x 50 x 40 cm, WEIGHT 6,0 kg
STANDARD COLOURS: black, light blue, light grey, sand

JETFLOAT DOUBLE ELEMENT:
L x W x H = 100 x 50 x 40 cm, WEIGHT 11,0 kg
STANDARD COLOURS: black, light blue, light grey, sand

JETFLOAT SINGLE ELEMENT: LOW VERSION:
L x W x H = 50 x 50 x 25 cm, WEIGHT 5,0 kg
STANDARD COLOUR: black
BUOYANCY: 220 kg/m² SINGLE LAYERED

FREEBOARD and BALLAST:
flooding through flood covers (with O-ring seal) can be regulated as required

BUOYANCY:
350 kg/m² SINGLE LAYERED, 700 kg/m²
DOUBLE LAYERED, 1050 kg/m² TRIPLE LAYERED

TEMPERATURE RESISTANCE:
- 60°C / + 80°C

RAW MATERIAL:
LUPOLEN 5261 Z (BASF) HIGH MOLECULAR
0,954 g/cm³ (HD-PE)

ACCESSORIES:
- reliable and robust standard accessories
- special accessories tailor-made for customer requirements and technical solutions on demand

2015 SUBJECT TO TECHNICAL ALTERATIONS.
